Ms. Clark called the meeting to order. The February 20, 2019 meeting minutes were presented. Mr. Hendrix made a motion to approve the minutes. K. Hance seconded the motion.

Nurse Karla gave a SHAC update. The flu hit our school hard this year prior to spring break. We had 18 confirmed cases in one week before spring break, and there was only one case confirmed this week. Nurse Karla also explained that we have a committee who has been planning Bobcat Night, which is a combination of Meet the Teacher Night, Supply Night, and much more. Bobcat Night will be held on August 15th.

Ms. Lori Knowles gave an update on the changes and improvements that have been made in our cafeteria. She said that customer service is a top priority. She wants the food to be both healthy and of good quality. Her main objective is to bring everything in the cafeteria up to standards to be in compliance with government regulations.

Ms. Clark stated that our district had just completed Mock STAAR testing, and she handed out those results.

End of the year surveys were reviewed and amended as needed. After a few revisions, they will be given out for parents and staff to fill out anonymously in April. These surveys are important to assess the needs of our district.

Budget considerations were given for next school year. An item suggested for consideration for the next meeting was the policies for transfer students.

The meeting was dismissed. The next meeting will be April 17, 2019.
