#### INDEPENDENT AUDITOR'S REPORT

Members of the Board

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fruitvale Independent School District (District), as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Fruitvale Independent School District as of August 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedules related to pension and other post employment benefit liabilities be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Independent Auditor's Report – Continued

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The schedules identified in the table of contents as other supplementary information are presented for the purpose of additional analysis, and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used in the preparation of the basic financial statements. Such information has been subjected to the auditing procedures of the basic financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other supplementary information schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide assurance.

#### Other Reporting Required by Government Auditing Standards

Mutherford, Taylor & Company PL

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### Members of the Board

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fruitvale Independent School District (District), as of and for the year ended

August 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 1, 2021.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Report on Internal Control - Continued

Butherford, Taylor & Conjung PL

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

\_\_\_\_\_

#### Members of the Board

#### Report on Compliance for Each Major Federal Program

We have audited Fruitvale Independent School District's (District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2021. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, contracts and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2021.

#### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

#### Internal Control over Compliance with the Uniform Guidance - Continued

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

<b>Prior Year Findings (</b> 3	Section	IV)
--------------------------------	---------	-----

This section of Fruitvale Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the year ended August 31, 2021. Please read it in conjunction with the District's basic financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

- The District's total combined net position was \$ 3,064,691 at August 31, 2021.
- During the year, the District's expenses were \$1,032,337, less than the \$7,167,302 generated in taxes and other revenues for governmental activities.
- The District experienced disruption in traditional educational services due to the state and national responses to the COVID-19 pandemic during the year.
- The General Fund reported a fund balance this year of \$ 4,484,089, an increase of \$ 631,387 over the previous year.
- The District issued no new debt during the year.

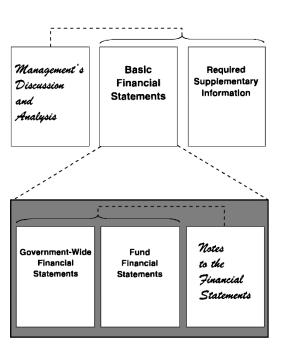

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts-management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the government, reporting the District's operations in more detail than the government-wide statements.
- The governmental funds statements tell how general government services were financed in the short term as well as what remains for future spending.
- Proprietary fund statements offer short- and long-term financial information about the activities the government operates like businesses, such as a print shop.
- Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The basic financial statements also include notes that explain some of the information in the basic financial statements and provide more detailed data. The statements are followed by a section of required supplementary

Figure A-1, Required Components of the District's Annual Financial Report

Detail

Summary

information that further explains and supports the information in the basic financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District's basic financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

### GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position—the difference between the District's assets and liabilities—is one way to measure the District's financial health or position.

Figure A-2. Major Features of the District's Government-wide and Fund Financial Statements

Fund Statements

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or
- To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base and student population.

The government-wide financial statements of the District include the governmental activities. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

#### **FUND FINANCIAL STATEMENTS**

deteriorating, respectively.

The fund financial statements provide more detailed information about the District's most significant funds—not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has the following kinds of funds:

• Governmental funds—Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explains the relationship (or differences) between them.

• Fiduciary funds—The District is the trustee, or fiduciary, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

#### FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's combined net position was \$ 3,064,691 at August 31, 2021.

					Table A-1

Total Net Position	\$	3,064,691	\$	2,032,354	50.8%

The District has restricted \$ 24,918 to represent funds held for debt retirement. The unrestricted net asset represents resources available to fund the programs of the District next year.

#### **CHANGES IN NET POSITION**

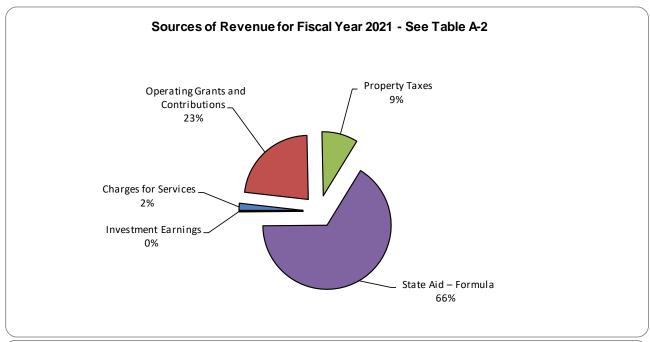

The District's total revenues were \$ 7,167,302. Approximately 9% of the District's revenue comes from local property taxes (See Table A-2). 89% comes from state aid and federal grants, while 2% relates to charges for services and other miscellaneous revenues including investment earnings.

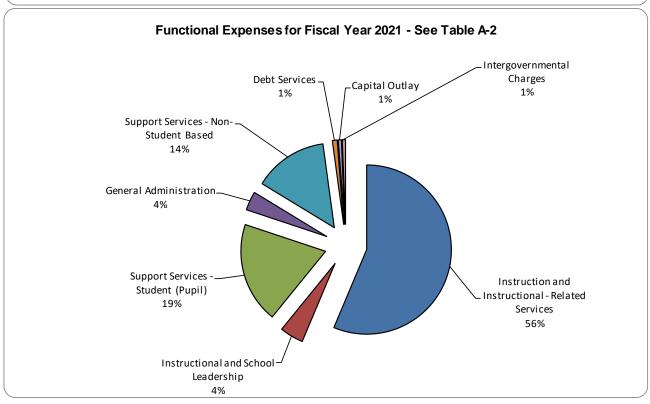

The total cost of all programs and services was \$6,134,966. 57% of these costs are for instruction and instructional related services.

The District's current tax collection rate (base tax only – current and delinquent) was 97.53%. The total tax collection rate (base tax and penalty and interest) was 99.13%.

- Table A-3 presents the cost of selected District functions as well as the selected function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.
- The cost of all governmental activities this year was \$ 6,134,966.
- However, the amount that our taxpayers paid for these activities through property taxes was only \$ 651,439,
- Some of the cost was paid by those who directly benefited from the programs, \$ 128,773, or
- By grants and contributions \$ 1,637,608.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District's fund equity in the governmental funds totaled \$ 4,484,089.

Revenues from governmental fund types totaled \$7,117,593 which is an increase of \$29,541 from the prior year total of 7,088,052. The increase is representative of the increase in state aid related to the implementation of HB3.

Expenditures of governmental fund types totaled \$6,437,537 which is an increase of \$64,622 from the prior year total of \$6,372,915. The increase relates to the additional compensation resulting from the adoption of HB3 as well as other operating costs.

\$

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revised its General Fund budget several times. Even with these adjustments, actual expenditures were \$ 742,693 below final General Fund budget amounts. The most significant positive variance resulted from less than anticipated costs in the instruction and capital outlay functional categories.

Resources available were \$ 350,180 above the final General Fund budgeted amount. The favorable variance was primarily due to better than anticipated state aid related to enrollment and attendance.

#### **CAPITAL ASSETS AND DEBT ADMINISTRATION**

#### **CAPITAL ASSETS**

At year end, the District had invested \$ 12,006,259 in a broad range of capital assets, including land, equipment, buildings, and vehicles (See Table A-4).

Net Capital Assets	\$	6,737,232	\$	6,876,295	-2.02%

#### **DEBT**

At year end, the District had \$ 1,986,350 in debt outstanding as shown in Table A-5. More detailed information about the District's debt is presented in the notes to the basic financial statements.

Fruitvale Independent School District's Debt						
		Governmental Activities				
		2021		2020	2020-2021	
Bonds Payable Other Debt Payable	\$	1,805,000 181,350	\$	1,905,000 214,254	-5.25% -15.36%	
Total Debt Payable	\$	1,986,350	\$	2,119,254	-6.27%	

#### **ECONOMIC FACTORS**

The District's property values for 2020 were up significantly from the prior year. Local property tax rates for maintenance and operations are restricted by statute to \$ .97, without local elections. The State Legislature passed HB3 which included various changes to the property tax rate setting process thus limiting school districts' opportunities for tax modifications and compressing the rates charged to taxpayers. The additional changes required under HB3 could impact the District's financial operations, including cash flow

Student population has remained at their historical growth rate. The economic outlook for the area is for growth to be relatively slow, as indicated by the continued slow growth of local property values. Housing has not expanded at the rate of other north central Texas communities. These economic conditions allow the District to maintain constant funding and staffing levels.

The State has increased funding levels for the 2019-2021 biennium, which will affect the revenue levels of the District. The level of funding per attendance credits increased significantly. With these increases, the state imposed requirements to spend at least 30% of the new funding on salaries to personnel with at least 75% of the 30% to be for teachers and other designated classes of employees. With these increases in funding, the District anticipates monitoring expenditure levels to ensure financial stability remains strong.

The global outbreak of coronavirus disease 2019 ("COVID-19") presents various global risks. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. Management of the District is actively monitoring the global situation on its financial condition, liquidity, operations, supplies, vendors, and industry. Given the evolution of the COVID-19 outbreak and the global responses to curb its spread, the District is not able to estimate the effects, if any, of the COVID-19 outbreak on its results of operations and financial condition.

The State, attempting to assist school district's financial stability, utilized additional federal funding received due to impact of the coronavirus pandemic. This additional funding source allocated to school districts was used to offset the attendance loss to the district's state funding. As such district expenditures have been reclassified as federal expenditures and fund balance can be affected.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Rebecca Bain, Superintendent of the District.

#### FRUITVALE INDEPENDENT SCHOOL DISTRICT NOTES TO THE BASIC FINANCIAL STATEMENTS YEAR ENDED AUGUST 31, 2021

#### A. Summary of Significant Accounting Policies

The basic financial statements of the Fruitvale Independent School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental units in conjunction with the Texas Education Agency's *Financial Accountability System Resource Guide (Guide)*. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

#### 1. Reporting Entity

The Board of School Trustees (Board), a seven member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and as a body corporate has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (Agency) or to the State Board of Education are reserved for the Board, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District is not included in any other governmental "reporting entity" as defined by GASB in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities.

#### 2. Basis of Presentation – Basis of Accounting

#### a. Basis of Presentation

Government-wide Statements – The statement of net position (SNA) and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities (SOA) presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements – The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The District reports the following major governmental funds:

General Fund – This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

In addition, the District reports the following fund types:

Special Revenue Funds – The District accounts for resources restricted to or designated for specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a special revenue fund, and sometimes unused balances must be returned to the grantor at the close of specified project years. The Board can commit specific types of resources to specific purposes which are included as special revenue funds.

#### FRUITVALE INDEPENDENT SCHOOL DISTRICT NOTES TO THE BASIC FINANCIAL STATEMENTS YEAR ENDED AUGUST 31, 2021

#### A. Summary of Significant Accounting Policies (Continued)

Debt Service Fund – This fund is used to account for the accumulation of resources for, and the payment of general long-term Debt principal, interest and related costs.

Internal Service Funds – These funds are proprietary type funds. These funds are used to account for revenues and expenses related to services provided to parties inside the District. These funds facilitate distribution of support costs to the users of support services on a cost-reimbursement basis. Because the principal users of the internal services are the District's governmental activities, this fund type is included in the "Governmental Activities" column of the government-wide financial statements. The District uses internal service funds for self insured workers compensation and self insured technology repair activities.

Custodial Funds – These funds are reported in the fiduciary fund financial statements. These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Custodial funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

#### b. Measurement Focus – Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Financial Statements – These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available.

The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally measurable until received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital lease are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

#### 3. Budgetary Data

The official budget was prepared for adoption for the general, food service and debt service funds. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1.
- b. A meeting of the Board is called for the purpose of adopting the proposed budget with public notice given at least 10 days prior to the meeting.
- c. Prior to the expenditure of funds, the budget is adopted by the Board.

# A. Summary of Significant Accounting Policies (Continued)

After adoption, the budget may be amended through action by the Board. Budget amendments are approved at the functional expenditure level. All amendments are before the fact and reflected in the official minutes of the Board. Budgets are controlled at the function level by personnel responsible for organizational financial reporting. All budget appropriations lapse at the year end. Budget amendments throughout the year were not significant.

#### 4. Encumbrance Accounting

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget.

End-of-year outstanding encumbrances that were provided for in the subsequent year's budget are:

General Fund	\$	-0-
Special Revenue Fund		-0-
Debt Service Fund		-0-
	•	
Total	\$	-0-

#### 5. Financial Statement Amounts

#### Cash and Investments

The District pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as a part of the District's cash and temporary investments.

For the purpose of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

# Fund Balance

Governmental funds utilize a fund balance presentation for equity. Fund balance is categorized as nonspendable, restricted, committed, assigned or unassigned.

Nonspendable fund balance – represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaids) or legally required to remain intact (such as notes receivable of principal of a permanent fund).

Restricted fund balance – represents amounts with external constraints placed on the use of these resources (such as debt covenants, grantors, other governments, etc.) or imposed by enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed fund balance – represents amounts that can only be used for specific purposes imposed by a formal action of the District's highest level of decision-making authority, the Board. Committed resources cannot be used for any other purpose unless the Board removes or changes the specific use by taking the same formal action that imposed the constraint originally.

Assigned fund balance – represents amounts the District intends to use for specific purposes as expressed by the Board or an official delegated the authority. The Board has delegated the authority to assign fund balances to the Superintendent.

Unassigned fund balance – represents the residual classification for the general fund or deficit balances in other funds.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

#### A. Summary of Significant Accounting Policies (Continued)

The following schedule provides information about the specific fund balance classification by fund:

	Other					
	Ge	General		Governmental		Total
Nonspendable						
Prepaid	\$	15	\$	-	\$	15
Restricted						
Child Nutrition Program		-		23,594		23,594
Retirement of Long Term Debt		-		39,597		39,597
Summer Feeding Program		-		42,378		42,378
Bobcat Supplies		-		496		496
Miscellaneous		-		1,291		1,291
Scholarships		-		17,915		17,915
Committed						
Campus Activity Funds		-		12,632		12,632
Construction	1,8	350,000		-		1,850,000
Capital Expenditures	2	260,000		-		260,000
Self Insurance	2	400,000		-		400,000
Unassigned	1,9	74,074		-		1,974,074
-						
Totals	\$ 4,4	184,089	\$	137,903	\$	4,621,992

#### Inventories

The purchase method is used to account for inventories of school supplies, athletic equipment and food products. Under this method, supplies and materials are debited as expenditures when purchased.

#### Prepaid Items

Certain payments to vendors reflect cost applicable to future accounting years and are recorded as prepaid items. Prepaid items are recorded as expenditures when the items are consumed or occur.

#### Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Esimaled
Useful Lives
15-50
5-10
3-15

# **Unearned Revenues**

Unearned revenues include state funds received but have not been earned in the year. The balance will be earned in the future year and not returned as liabilities.

#### 6. Deferred Outflows and Inflows of Resources

The District implemented GASB Statement Number 68, Accounting and Financial Reporting for Pensions and GASB Statement Number 75, Accounting and Financial Reporting for Postemployment Benefits and Other Pensions. In addition to assets and liabilities, the government-wide Statement of Net Position and governmental fund Balance Sheet report separate sections for deferred outflows and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position/fund balance that applies to a future year and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent the acquisition of net position/fund balance that applies to a future year and will not be recognized as an inflow of resources (revenue) until that time. The District reports certain deferred inflows and outflows related to pensions on the government-wide Statement of Net Position. At the governmental fund level, earned but unavailable revenue is reported as a deferred inflow of resources.

#### A. Summary of Significant Accounting Policies (Continued)

The District also implemented GASB Statement Number 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, which amends the transition provisions of GASB 68. GASB 71 requires that, at transition, governments recognize a beginning deferred outflow of resource for pension contributions made subsequent to the measurement date of the beginning Net Pension Liability. Implementation is reflected in the financial statements and the prior year adjustment.

### 7. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

#### 8. Interfund Activities

Interfund activity results from loans, service provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfer" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

### 9. Vacation, Sick Leave, and Other Compensated Absences

District employees are entitled to certain compensated absences based on their length of employment. Sick leave accrues at various rates established by the State and adopted by the Board of Trustees. Sick leave does not vest but accumulates and is recorded as an expenditure as it is paid.

#### 10. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Retirement System of Texas (TRS) and additions to/ deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# 11. Other Post-Employment Benefits (OPEB)

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expenses, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit term. There are no investments as this a pay-as-you-go plan and all cash is held in a cash account.

#### 12. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could vary from these estimates.

#### A. Summary of Significant Accounting Policies (Continued)

#### 13. Data Control Codes

Data control codes refer to the account code structure prescribed by the Agency in the *Guide*. The Agency requires the District to display these codes in its financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

# 14. Accounting System

In accordance with Texas Education Code, Chapter 44, Subchapter A, the District adopted and implemented an accounting system which at least meets the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. The District's accounting system uses codes and the code structure presented in the accounting code section of the *Guide*. Mandatory codes are utilized in the form provided in that section.

#### B. Deposits, Securities and Investments

# Cash Deposits

The District's funds are deposited and invested under the terms of a depository contract. The contract requires the depository to pledge approved securities in an amount significant to protect the District's day-to-day balances. The pledge is waived only to the extent of the dollar amount of Federal Deposit Insurance District (FDIC) insurance. At year end, all District cash deposits appear to have been adequately covered by FDIC insurance or by pledged collateral held by the District or the depository in the District's name. The District's deposits appear to have been properly secured throughout the year.

#### **Investments**

The District's investment policies and types of investments are governed by the Public Funds Investment Act (PFIA). The Act requires specific training reporting and establishment of local policies. The District appears to be in compliance with all the requirements of the Act.

The PFIA (Government Code Chapter 256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement and publicize an investment policy. That policy must address the following areas (1) safety of principal and liquidity, (2) portfolio diversifications, (3) allowable investments, (4) acceptable risk level, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the state maturity date of portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preference for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) banker's acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The PFIA governs the District's investment policies and types of investments.

The District's management believes that is complies with the requirements of the PFIA and the District's investment policies.

District investments include investments in TexPool and Lone Star, which are local government investment pools. All investments are reported at fair value and are presented as cash and investments.

The following table lists the District's investments at year end:

	Fair Value/ Amoritized Costs	Weighted Average Maturity (Days)
Governmental Activites:  Cash Deposits Investments	\$ 4,396,962	N/A
TexPool	1	39
Lone Star Investment Pool	1,526	47
Total	\$ 4,398,489	

# B. <u>Deposits, Securities and Investments (Continued)</u>

#### Lone Star Investment Pool

The Lone Star Investment Pool (Lone Star) is a public funds investment pool created pursuant to the Interlocal Cooperation Act, Texas Government Code, Chapter 791, and the PFIA, Texas Government Code, Chapter 2256. Lone Star is administered by First Public, a subsidiary of the Texas Association of School Boards (TASB), with Standish and American Beacon Advisors managing the investment and reinvestment of Lone Star's assets. State Street Bank provides custody and valuation services to Lone Star. All of the board of trustees' eleven members are Lone Star participants by either being employees or elected officials of a participant. Lone Star has established an advisory board composed of both pool members and non-members. Lone Star is rated AAAm by Standard and Poor's. Lone Star has no limitations or restrictions on withdrawals. The District is invested in the Corporate Overnight Plus Fund of Lone Star. Lone Star has 3 different funds: Government Overnight, Corporate Overnight and Corporate Overnight Plus. Government and Corporate Overnight maintain a net asset value of one dollar and the Corporate Overnight Plus maintains a net Asset value of 50 cents. The Government Overnight and Corporate Overnight Funds value all investments at amortized cost and are operated in accordance with GASB 79. The Corporate Overnight Plus Fund values all investments at fair value and is operated in accordance with GASB 72.

#### Texas Local Government Investment Pool

The District invests in the Texas Local Government Investment Pool (TexPool), which is a local government investment pool that was established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the PFIA, Chapter 2256 of the Texas Government Code. The State Comptroller of Public Accounts oversees TexPool. Federated Investors, Inc. is the administrator and investment manager of TexPool under contract with the State Comptroller. In accordance with the Public Funds Investment Act, the State Comptroller has appointed the TexPool Investment Advisory Board to advise with respect to TexPool. The board is composed equally of participants in TexPool Portfolios and other persons who do not have a business relationship with TexPool Portfolios and are qualified to advise in respect to TexPool Portfolios. The Advisory Board members review the investment policy and management fee structure. TexPool is rated AAAm by Standard and Poor's and operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. All investments are stated at amortized cost, which approximates market value of the securities. The stated objective of TexPool is to maintain a stable average \$1.00 per unit net asset value; However, the \$1.00 net asset value is not guaranteed or insured. The financial statements can be obtained from the Texas Trust Safekeeping Trust Company website at www.ttstc.org.

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

#### a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

#### b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the Districts' name. At year end, the District was not exposed to custodial credit risk.

The largest combined balances of cash, saving and time deposit accounts amounted to \$5,332,914 and occurred in May 2021. The amount of bond or market value of securities pledged as of the date of the highest combine balance on deposit was \$5,011,200. The total amount of FDIC coverage at the time of the highest combined balance was \$321,714. City National Bank, Sulphur Springs, Texas is the District's depository.

# B. <u>Deposits, Securities and Investments (Continued)</u>

#### c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

#### d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. District investments are limited to short term maturities to limit any potential interest rate risk. At year end, the District was not exposed to interest rate risk.

#### e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. State statutes do not allow for foreign investments this eliminating foreign currency rate risk. The District was not exposed to foreign currency risk.

#### f. Fair Value Measurements

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets: Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements require judgement and considers factors specific to each asset or liability.

#### C. Property Taxes

Property taxes are levied by October 1, in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the October 1 levy date. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties and interest ultimately imposed. Property tax revenues are considered available when collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year.

Property taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Section 33.05, Property Tax Code, requires the tax collector for the District to cancel and remove from the delinquent tax rolls a tax on real property that has been delinquent for more than 20 years or a tax on personal property that has been delinquent for more than 10 years. Delinquent taxes meeting this criteria may not be canceled if litigation concerning these taxes is pending.

The District levied taxes on property within the District at \$ 0.9977 to fund general operations and \$ 0.1474 for the payment of principal and interest on long term debt. The rates were levied on property assessed totaling \$ 56,989,807. The District contracts with a tax attorney for the collection of all delinquent taxes. Delinquent taxes are subject to both penalty and interest plus a 20% delinquent tax attorney collection fee.

# D. <u>Capital Assets</u>

Capital asset activities during the year were as follows:

		Beginning Balances	Increases	Decre	eases	Ending Balances
Capital Assets not Being Depreciated:						
Land	\$	141,350	\$ -	\$	-	\$ 141,350
Total Capital Assets not being Depreciated	\$	141,350	\$ -	\$	-	\$ 141,350
Capital Assets being Depreciated:						
Building and Improvements	\$	10,411,425	\$ 58,081	\$	-	\$ 10,469,506
Equipment		389,096	96,797		-	485,893
Vehicles		828,942	80,568		-	909,510
Total Capital Assets being Depreciated	\$	11,629,463	\$ 235,446		-	\$ 11,864,909
Less Accumulated Depreciation for:						
Buildings and Improvements	\$	4,111,164	\$ 300,435	\$	-	\$ 4,411,599
Equipment		246,178	14,429		-	260,607
Vehicles	_	537,176	59,645		-	596,821
Total Accumulated Depreciation	\$	4.894.518	\$ 374.509	\$	_	\$ 5,269,027
Total Capital Assets being Depreciated, Net	\$	6,734,945	\$ (139,063)		-	\$ 6,595,882
Governmental Activities Capital Assets, Net	\$	6,876,295	\$ (139,063)	\$	-	\$ 6,737,232

# Depreciation was charged to governmental activities functions as follows:

Instruction	\$ 203,499
Instructional Resources and Media Services	8,243
School Leadership	4,748
Guidance, Counseling and Evaluation Services	1,289
Health Services	888
Student (Pupil) Transportation	57,295
Food Services	31,500
Cocurricular/Extracurricular Activities	49,949
General Administration	2,886
Plant Maintenance and Operations	8,743
Security	 5,469
Total	\$ 374,509

# E. <u>Long Term Obligations</u>

# Long Term Obligation Activity

Long-term obligation activities during the year were as follows:

	Beginning Balances	Increases		Г	ecreases	Ending Balances	Amounts Due Within One Year
	 <u>Dalarioos</u>	110104303				<u>Dalarioos</u>	ono rour
General Obligation Bonds Capital Leases	\$ 1,905,000 24,195	\$	-	\$	100,000 7,785	\$ 1,805,000 16,410	\$ 105,000 8,062
Loans Bond Premium (Discount)	 70,126 119,933		-		17,466 7,653	52,660 112,280	17,510 
Total Governmental Activities	\$ 2,119,254	\$	-	\$	132,904	\$ 1,986,350	\$ 130,572

# E. Long Term Obligations (Continued)

#### **Bonds**

The District has issued various series of general obligation bonds to fund facility construction and improvements. Bonds mature at various times with varying rates of interest. The bonds issued require the District to levy an ad valorem tax annually to retire the current maturities. The District is required to make annual interest payments along with annual principal payments.

The following bonded debt issues are outstanding at year end:

Description	Interest	Original	Outstanding		
	Rate	Balance	Balances		
Unlimited Tax School Refunding Bonds, Series 2014	2.2279%	\$ 940,000	\$ 485,000		
Unlimited Tax School Building Bonds, Series 2016	2.7116%	1,500,000	1,320,000		
Totals			\$ 1,805,000		

Maturity requirements on bonded debt at year end are as follows:

Year Ending			Total
August 31	Principal	Interest	Requirements
2022	10F 000	60,000	165,000
2022	105,000	60,000	105,000
2023	115,000	56,275	171,275
2024	115,000	52,275	167,275
2025	115,000	48,175	163,175
2026	85,000	44,588	129,588
2027-2031	255,000	188,913	443,913
2032-2036	255,000	145,200	400,200
2037-2041	305,000	99,531	404,531
2042-2046	370,000	44,688	414,688
2047-2051	 85,000	1,381	86,381
Totals	\$ 1,805,000	\$ 741,026	\$ 2,546,026

There are a number of limitations and restrictions contained in the general obligation bond indentures. The District appears to be in compliance with all significant limitations and restrictions as of year end.

#### Loans

The District issued various agreements identified here as loans. These loans include financing arrangements including maintenance tax notes.

Loan terms require annual principal and interest payments over the life of the loan. The loan is for 10 years, with final payment due in 2024.

The following schedule lists the outstanding loans at year end:

Description	Interest Rate		Original Balance	Outstanding Balances		
SECO Grant Loan CL-281 - Energy Management SECO Grant Loan CL-282 - Energy Management	0.25% 0.25%	\$ 43,296 96,258		\$	16,338 36,322	
Total	\$	52,660				

# E. <u>Long Term Obligations (Continued)</u>

Maturity requirement on the loans at year end are as follows:

Year Ending						Total
August 31	P	Principal		Interest		equirements
2022		17,510		115		17,625
2023		17,553		71		17,624
2024		17,597		28		17,625
Totals	\$	52,660	\$	214	\$	52,874

#### Capital Leases

The District is obligated under certain leases accounted for as capital leases. The leases recorded here meet the criteria of a capital lease as defined by statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee.

The following schedule lists personal property leased:

	Implicit	Original
	Interest	Property
Description	Rate	Value
Governmental Lease - Lighting Retrofit	3.53%	\$ 52,746

The lease terms are for three years. The terms call for annual payments over the life of the lease.

Commitments under capitalized lease agreements for facilities and equipment provide for minimum future lease payments as of end of year, are as follows:

Year Ending August 31	Req	Total uirements
2022 2023	\$	8,570 8,570
Total Minimum Lease Payment	\$	17,140
Less Amount Representing Interest		730
Present Value of Net Minimum Lease Payments	\$	16,410

#### F. <u>Defined Benefits Pension Plan</u>

#### 1. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

#### F. Defined Benefits Pension Plan (Continued)

#### 2. Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <a href="http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR">http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR</a>; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592. The information provided in the Notes to the Financial Statements in the 2019 Comprehensive Annual Financial Report for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2020 and 2019

Net Pension Liability 2020		2019		
Total Pension Liability Less: Plan Fiduciary Net Position	\$	218,974,205,084 (165,416,245,243)	\$	209,961,325,288 (157,978,199,075)
Net Pension Liability	\$	53,557,959,841	\$	51,983,126,213
Net Position as percentage of Total Pension Liability		75.54%		75.24%

#### 3. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (1) above.

Texas Government Code Section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

In May 2019, the 86<sup>th</sup> Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13<sup>th</sup> check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$ 2,000, whichever was less.

#### 4. Contributions

Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code Section 825.402. The TRS Pension Reform Bill (SB12) of the 86th Texas Legislature amended Texas Government Code Section 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

# F. <u>Defined Benefits Pension Plan (Continued)</u>

#### **Contribution Rates**

	 2020	2021
Member	7.7%	7.7%
Non-Employer Entity (State)	6.5%	6.8%
Employers	6.5%	6.8%
Current Year Employer Contributions	\$ 129,647	
Current Year Member Contributions	\$ 292,093	
Measurement Period NECE On-Behalf Contributions	\$ 210,711	

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

A Public Education Employer contribution surcharge of 1.5% increasing to 2% over the period ending 2025 on all covered payroll.

# 5. Actuarial Assumptions

The total pension liability in the August 31, 2021 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2019 rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term Expected Investment Rate	7.25%
Inflation	2.30%
Salary Increases including inflation	3.05% to 9.05%
Benefit Changes during the year	None
Ad hoc post-employment benefit changes	None
Municipal Bond Rate	2.33%
Ending Year in Projection Period	2119

The actuarial assumptions used in this determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2019. A full description of the assumptions is included with the report dated November 9, 2017.

# F. Defined Benefits Pension Plan (Continued)

#### 6. Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50% of payroll in fiscal year 2020 gradually increasing to 9.55% of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as August 31, 2020 are summarized below:

Asset Class	FY 2020 Target Allocation <sup>1</sup> %	Long -Term Expected Geometric Real Rate of Return <sup>2</sup>	Expected Contribution to Long- Term Portfolio Returns
Global Equity	70	Nate of Neturn	Retuins
U.S.	18.0%	3.9%	0.99%
Non-U.S. Developed	13.0%	5.1%	0.92%
Emerging Markets	9.0%	5.6%	0.83%
Directional Hedge Funds	0.070	-	-
Private Equity	14.0%	6.7%	1.41%
Stable Value			
Government Bonds	16.0%	-0.7%	-0.05%
Absolute Return (Including Credit Sensitive Investments)	0.0%	1.8%	0.0%
Stable Value Hedge Funds	5.0%	1.9%	0.11%
Real Return			
Global Inflation Linked Bonds		-	-
Real Estate	15.0%	4.6%	1.02%
Energy, Natural Resources and Infrastructure	6.0%	6.0%	0.42%
Commodities	0.0%	0.8%	0.0%
Risk Parity			
Risk Paritiy	8.0%	3.0%	0.30%
Leverage			
Cash	2.0%	-1.5%	-0.03%
Asset Allocation Leverage	-6.0%	-1.3%	0.08%
Inflation Expectation			2.00%
Volatility Drag <sup>3</sup>			-0.67%
Expected Return	100%		7.33%

<sup>&</sup>lt;sup>1</sup> Target allocations are based on the FY2020 policy model.

 $<sup>^{2}\,\</sup>mbox{Capital Market}$  Assumptions come from Aon Hew itt (as of 8/31/2020)

<sup>&</sup>lt;sup>3</sup> The Volatility Drag results from the conversation between arithmetic and geometric mean returns.

#### F. Defined Benefits Pension Plan (Continued)

#### 7. Discount Rate Sensitivity Analysis

The following presents the District's share of the net pension liability of the plan using the discount rate of 7.25% as well as what the District's share of the net pension liability would be if it were calculated using a discount rate that is 1 – percentage point lower (6.25%) or 1 – percentage point higher (7.25%) than the current rate:

	1% Decrease		Dis	scount Rate	1%	Increase
District's proportionate share of the net pension liability	\$	2,240,860	\$	1,453,234	\$	813,304

8. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2021, the District reported a liability of \$ 1,453,234 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 1,453,234
State's proportionate share that is associated with the District	 2,735,143
	_
Total	\$ 4,188,377

The net pension liability was measured as of August 31, 2019 and rolled to August 31, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contribution to the pension plan relative to the contributions of all employers to the plan for the year September 1, 2019 thru August 31, 2020.

At August 31, 2020, the employer's proportion of the collective net pension liability was 0..002713848%, which was an increase of 0.0000756185% from its proportion measured as of August 31, 2019.

Changes Since the Prior Actuarial Valuation

For the current year, the District recognized pension expense of \$ 568,221 and revenue of \$ 328,977 for support provided by the State.

At year end, the District reported its proportionate share of the TRS's deferred outflow of resources and deferred inflows of resources related to pensions from the following sources.

		ed Outflows Resources	 Deferred Inflows of Resources	
Differences between expected and actual actuarial experiences Changes of actuarial assumptions	\$	2,653 337,202	\$ 40,556 143,376	
Differences between projected and actual investment earnings Changes in proportion and differences between the employer's		29,420	-	
contributions and the proportionate share of contributions		96,055	 79,379	
Total as of August 31, 2020 measurement date	\$	465,330	\$ 263,311	
Contributions paid to TRS subsequent to the measurement date		129,647	 	
Total as of fiscal year end	\$	594,977	\$ 263,311	

# F. <u>Defined Benefits Pension Plan (Continued)</u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	
August 31	 Amount
2022	\$ 66,663
2023	67,797
2024	58,457
2025	16,141
2026	(8,268)
Thereafter	1,230

#### G. Other Post-Employment Benefit Plans

#### 1. Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.052.

# 2. OPEB Plan Fiduciary Net Position

Detail Information about the TRS-Care's fiduciary net position is available in the separately issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <a href="http://www.trs.state.tx.us/about/documents/cafr/pdf#CAFR">http://www.trs.state.tx.us/about/documents/cafr/pdf#CAFR</a>; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

The components of the Net OPEB Liability of the TRS-Care plan as of August 31, 2020 and 2019 are as follows:

Net OPEB Liability		2020	2019		
Total OPEB Liability Less: Plan Fiduciary Net Position	\$	40,010,833,815 (1,996,317,932)	\$	48,583,247,239 (1,292,022,349)	
Net OPEB Liability	\$	38,014,515,883	\$	47,291,224,890	
Net Position as percentage of Total OPEB Liability		4.99%		2.66%	

#### 3. Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

#### G. Other Post-Employment Benefit Plans

The premium rates for retirees are presented in the table below:

TRS-Care Monthly Premium Rates				
	Emp	oloyer	Em	ployee
Retiree or Surviving Spouse	\$	135	\$	200
Retiree and Spouse		529		689
Retiree or Surviving Spouse and Children		468		408
Retiree and Family		1,020		999

#### 4. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a payas-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, Section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.75% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contribution Rates			
		2020		2021
Active Employee		0.65%		0.65%
Non-Employer Contributing	Entity (State)	1.25%		1.25%
Employers		0.75%		0.75%
Federal/Private Funding rea	mitted by Employers	1.25%		1.25%
Current Year	Employer Contributions	\$	37,478	
Current Year	Member Contributions	\$	24,658	
Measurement Period	NECE On-Behalf Contributions	\$	49,583	

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$ 535 per retiree.

A supplemental appropriation was authorized by Senate Bill 1264 of the 86<sup>th</sup> Texas Legislature to provide \$ 2,208,137 for fiscal year 2020 and \$ 3,312,206 for fiscal year 2021, for consumer protections against medical and health care billing by certain out-of-network providers. Funding will be in fiscal year 2021.

# 5. Actuarial Assumptions

The total OPEB liability in the August 31, 2019 actuarial valuation was rolled forward to August 31, 2020. The actuarial valuation was determined using the following actuarial assumptions:

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Salary Increases
Rates of Disability	

The actuarial valuation of TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, rates of retirement, termination, and disability including general inflation and salary increases are identical to those used in the respective TRS Pension valuation. These assumptions were developed in the experience study performed for TRS for the measurement period ended August 31, 2017.

#### G. Other Post-Employment Benefit Plans

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females with full generational mortality using scale BB. The past retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

Additional Actuarial Methods and Assumptions:

Valuation Date August 31, 2019 rolled forward to August 31, 2020

Actuarial Cost Method Individual Entry Age Normal

Inflation 2.30% Discount Rate 2.33%

Aging Factors Based on plan specific experience

Expenses Third-party administrative expenses related to the

delivery of health care benefits are includeed in the

age-adjusted claims costs.
Salary Increases 3.05% to 9.05%, including inflation

Election Rates Normal Retirement: 65% participation prior to age 65

and 40% participation after age 65. 25% of pre-65 retirees are assumed to discontinue coverage at age

Ad hoc post-employment benefit changes None

#### 6. Discount Rate

A single discount rate of 2.33% was used to measure the total OPEB liability. There was a decrease of 0.3% in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all years of projected benefit payments to determine the total OPEB liability.

#### 7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% greater than the discount rate that was used (2.33%) in measuring the net OPEB liability.

	1%	6 Decrease		Discount Rate	1	% Increase
District's proportionate share of the net OPEB liability	\$	2,214,578	,	1,845,485	\$	1,553,955

#### 8. Healthcare Cost Trend Rates Sensitivity Analysis

The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate (8.5%), as well as what the net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed healthcare cost trend rate.

		Curre	ent Healthcare				
	1% Decrease	Cos	st Trend Rate	1	% Increase	ncrease	
District's proportionate share of the net OPEB liability	\$ 1,507,525	\$	1,845,485	\$	2,295,600		

# OPEB Liabilities, OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB.

At year end, the District reported a liability of \$1,845,485 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

# G. Other Post-Employment Benefit Plans

District's proportionate share of the collective net OPEB liability	\$ 1,845,485
State's proportionate share that is associated with the District	 2,479,890
Total	\$ 4,325,375

The net OPEB liability was measured as of August 31, 2019 and rolled forward to August 31, 2020. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the year September 1, 2019 thru August 31, 2020.

At August 31, 2020, the District's proportion of the collective net OPEB liability was 0.0048546853% which was an increase of 0.0002910751% from its proportion measured as of August 31, 2019.

Changes Since the Prior Measurement Date – The following were changes to the actuarial assumptions or other inputs that affected measurements of the total OPEB liability since the prior measurement period:

- a. Discount rate decreased from 2.63% to 2.33% increasing the Total OPEB Liability.
- b. The participation rate for post-65 retirees was lowered from 50% to 40%. This change lowered the Total OPEB Liability.
- c. The ultimate healthcare assumption was lowered from 4.50% to 4.25% as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.

For the current year, the District recognized OPEB expense of \$ (423,532) and revenue of \$ (17,219) for support provided by the State.

At year end, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	 red Outflows Resources	 erred Inflows Resources
Differences between expected and actual actuarial experiences Changes in actuarial assumptions	\$ 96,629 113.828	\$ 844,588 506.780
Differences between projected and actual investment earnings	599	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	 162,700	 2,444,932
Total as of August 31, 2020 measurement date	\$ 373,756	\$ 3,796,300
Contributions paid to TRS subsequent to the measurement date	 37,478	 
Total at fiscal year end	\$ 411,234	\$ 3,796,300

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expenses as follows:

Year Ending	
August 31	Amount
2022	\$ (570,465)
2023	(570,545)
2024	(570,591)
2025	(570,581)
2026	(521,287)
Thereafter	(619,074)

#### H. Medicare Part D Coverage

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. Under Medicare Part D, TRS-Care receives retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the years ended August 31, 2021, 2020 and 2019, the subsidy payments received by TRS-Care on behalf of the District were \$ 15,942, \$ 14,241 and \$ 10,518 respectively. These payments are recorded as equal revenues and expenditures in the governmental funds financial statement of the District.

#### I. Risk Management

#### Health Care

During the year, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$ 275 per month per employee and employees, at their opinion, authorized payroll withholdings to provide dependents coverage under the Plan. All premiums were paid to a licensed insurer. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

The contract between the Fruitvale Independent School District and Blue Cross Blue Shield is renewable September 1 of each year and terms of coverage and premium costs are included in the contractual provisions.

Latest financial statements for Blue Cross Blue Shield are available for the year ended December 31, 2020 and have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records

#### Workers Compensation

The District participates in the East Texas Educational Insurance Association Workers Compensation Self Insurance Joint Fund. The District is partially self-funded to a loss fund maximum of \$ 16,540 for the 20-21 fiscal year. Additionally, the District incurred fixed costs of \$ 11,447 for their share of claims administration, loss control, record keeping, and cost of excess insurance.

Claims administration is provided by Claims Administrative Services, Inc. Reinsurance is provided for aggregate claim losses exceeding \$ 225,000. The fixed cost charge is based on total payroll paid by the District. Increases or decreases in the fixed costs will adjust subsequent year charges.

The accrued liability for workers' compensation self-insurance of \$ 14,721 includes \$ 5,282 of incurred but not reported claims. This liability is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues," which require that a liability for claims be reported if information indicates that it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. The liability recorded is an undiscounted actuarial calculation.

Changes in the workers' compensation claims liability amounts in the years of 2021 and 2020 are represented below:

	 2021	 2020	
Claims Payable - Beginning	\$ 14,176	\$ 14,645	
Claims Incurred and Changes in Estimate	2,196	3,938	
Claim Payments	 (1,651)	(4,407)	
Claims Payable - Ending	\$ 14,721	\$ 14,176	

#### Unemployment Compensation Pool

During the current year, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute interlocal agreements that define the responsibilities of the parties.

#### I. Risk Management

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued each month until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for Unemployment Compensation pool.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2020, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

#### Other Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2021, the District purchased commercial insurance to cover these liabilities. There were not significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

# J. <u>Litigation</u>

The District appears to have no pending litigation as of August 31, 2021.

# K. <u>Commitments and Contingencies</u>

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at year end, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

#### L. <u>Subsequent Events</u>

Management has evaluated all events or transactions that occurred after August 31, 2021 up through December 1, 2021 the date the financial statements were issued.

#### M. Revenue from Local and Intermediate Sources

During the year, the District received revenue from local and intermediate in the District's major funds and aggregate non major funds consisting of the following:

Othor

	Otner										
	 General	G	overnmental		Totals						
Property Tax Collections	\$ 564,275	\$	88,878	\$	653,153						
Investment Income	9,458		256		9,714						
Food Service Income	-		33,585		33,585						
Cocurricular/Extracurricular Activities	12,674		16,510		29,184						
Other	 63,352		1,500		64,852						
Totals	\$ 649,759	\$	140,729	\$	790,488						

#### N. Receivables

Receivables at year end, for the District's individual major funds and aggregate nonmajor funds, including any applicable allowances for uncollectible accounts are as follows:

Due from Other Governments	\$ 378,900 \$	239,486 \$	618,386
Property Taxes Receivable	35,959	3,409	39,368
Less: Allowance for Uncollectible			
Property Taxes	(3,596)	(341)	(3,937)
Other	 1,835	447	2,282
Net Receivables	\$ 413,098 \$	243,001 \$	656,099

#### O. State Aid Reconciliation

The State provides various types of funding for local school districts as provided for in state statute. The following reconciliation presents funding earned by the District in each category presented. Because of the State's delay in reconciling the funding to local districts, the summary below represents an estimate of earnings. The settle up with the State will occur some 9 to 10 months following the fiscal year end.

Funding is earned for: 1) Available – annual allocation based on prior year enrollment; 2) Foundation – annual allocation based on student attendance, property tax collections and valuations, and special student population; 3) Instructional Facilities Allotment – based on property wealth; and 4) Existing Debt Allotment – based on eligible debt, student attendance and property wealth. Various other sources are received but not reconciled here as these are the major sources of funding.

		Available	F	oundation	 IFA		EDA			
CY Summary of Finances (SOF) August Instructional Days Change Prior Period Settle-ups	\$ 188,649 (775)		(775)		(775) 10,657		\$ 90,420	Not Eligible		
Financial Statement Earnings	\$	187,874	\$	4,546,380	\$ 90,420	\$				
Financial Statement Classifications: August Instructional Days Receivable SOF Receivable (Overpayment) *	\$	11,435 -	\$	367,465 (121,970)	\$ - (6,144)	\$	-			

<sup>\*</sup> Overpayments are represented in the financial statements as Unearned Revenue (government-wide and governmental).

#### P. Change in Accounting Principle

The District implemented the following Governmental Accounting Standard Board Statements during the year. The provisions impact the financial reporting for the District. Statement 84, *Fiduciary Activities*, relates to the presentation and accounting for custodial funds of the District. The standard includes fiduciary reporting and accounting for Student Custodial Funds (previously presented as Student Agency Funds) of the District. GASB Statements 91, 92, and 93, have also been implemented but do not have an impact on the District's financial reporting.

#### Q. Prior Period Adjustments

During the year, the District implemented GASB 84, *Fiduciary Activities*, which require the reclassification and establishment of new equity accounts presented as Custodial Funds for the previously presented Student Agency Funds. The prior financial statement amount represented as Due to Student Groups is reclassified and presented as Net Position – Restricted for Student Activities. The establishment of the net position balances required the beginning equity to be increased by \$ 35,000 as presented on Exhibit E-2. The reclassification does not effect the government-wide or governmental fund financial statements. Only the fiduciary fund financial statements are affected.

### FRUITVALE INDEPENDENT SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION YEAR ENDED AUGUST 31, 2021

#### A. Budget

The official budget was prepared for adoption for all Government Fund Types. The budget was prepared in accordance with accounting practices generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
- 3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board.

Once a budget is approved, it can be amended at function and fund level only by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings.

Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board and are not made after fiscal year end as required by law.

Each amendment is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at the time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no end-of-year outstanding encumbrances that were provided for in the subsequent year's budget.

# B. <u>Defined Benefit Pension Plan</u>

1. Changes of Assumptions Since the Prior Measurement Date

There were no changes of assumptions since the prior measurement period.

2. Changes of Benefit Terms Since the Prior Measurement Date

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

#### C. OPEB Healthcare Plan

1. Changes of Assumptions Since the Prior Measurement Date

The following changes occurred in the plan assumptions.

- a. The discount rate changed from 2.65% to 2.33%
- b. The participation rate for post-65 retirees was lowered from 50% to 40%.

#### 2. Changes of Benefit Terms Since the Prior Measurement Date

There were no changes of benefit terms that affected measurement of the total OPEB liability since the prior measurement date.

# FRUITVALE INDEPENDENT SCHOOL DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED JUNE 30, 2021

#### A. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Fruitvale Independent School District and is presented on the modified accrual basis of accounting. Expenditures are recognized in the accounting period in which a fund liability occurs. Funds are considered earned to the extent of expenditures made.

The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

# B. Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. No provision has been made for amounts on hand at year end.

#### C. Reconciliation of Federal Revenue with Financial Statements

The District records amounts received from the federal government or other recipients of federal grant as federal revenue in the financial statements. This reconciliation identifies the difference between the financial statement revenues and the schedule of expenditures of federal awards:

Total Federal Expenditures (Exhibit K-1)		\$ 784,337
Indirect Cost: Title X, Part C Title I, Part A IDEA – B Preschool Title II, Part A	\$ 515 4,738 81 	
Total Indirect Cost		6,072
Head Start – ESC Region VII		1,560
School Health and Related Services		 135,401
Federal Revenue (Exhibit C-3)		\$ 927,370
